Multi-Talented

Krysjen Brothorn demonstrates excellent leadership skills in her Cosmetology program. She has outstanding work ethic and personality, two essential characteristics needed for the Cosmetology field. Her teacher, Mrs. Ellison shares that Krysjen is driven, thoughtful and very honest. Krysjen has earned 928 hours toward her State Cosmetology License. She was the BCAVTS Student of the Month for February. Krysjen keeps herself busy in the evening also... She works at Marshalls after a full day of school and still has time to keep up with her studies. In the Cosmetology class, Krysjen was nominated as the best basic manicure massager! She kept working on this talent and her future has unfolded... Krysjen's future plans include attending Pittsburgh Technical College for Massage Therapy.

Outstanding in Multiple Fields

Mars junior Faith Vickinovac is a multi-faceted performer. Faith has maintained an A average for every semester in her Health Assistant program. While her academic performance at BCAVTS is exceptional, it is the extra-curriculars that really set her apart. Faith has earned several industry certifications here at BCAVTS including Feeding Assistant, Direct Care Worker, and CPR/First Aid. She is also a member of HOSA Future Health Professional and will compete at their state conference in the CPR/First Aid category. Faith shines in the field back at Mars as well, where she participates in track and field as a thrower (javelin, shotput, and discus) and plays softball. After graduation, Faith is considering BC3 and Waynesburg College where she plans to study nursing.

Cosmetology Connection

Mars senior Hannah Nickl has really excelled in the Cosmetology program here at BCAVTS. Hannah has earned A's in her last five consecutive grading periods. Her success is not limited to BCAVTS, however. Hannah is on the Honor Roll at Mars as well. These achievements are in no small part due to her near perfect attendance. Hannah's hard work has already paid dividends, resulting in being named BCAVTS Challenge Program Community Service Winner. Hannah is also excelling in the tactile portion of her program. She is well on her way to her State Cosmetology License, having already earned 975 hours. Hannah also placed fourth in the Esthetics Competition in this year's SkillsUSA District 10 Championships. Hannah was chosen to participate in the ROVA (Rotary Outstanding Vocational Award) Leadership outing last spring and is currently working at the Lightning Bug Arcade.

Going For Gold

Mars junior Roshan Nunna is really going places. For starters, Roshan is going to Hershey in April to compete in Information Technology Services at the Pennsylvania SkillsUSA State Competition and Conference. Roshan earned this honor by bringing home the gold medal at the SkillsUSA District 10 Championships. His success should surprise no one as Roshan has earned straight A's throughout his time here at BCAVTS. Roshan earned his CompTIA A+ Certification last year and this is working toward his CompTIA Network+ certification in the Computer Networking and Security program. Roshan's success is not limited to BCAVTS, he is on the honor roll at Mars as well. Roshan has achieved much already at BCAVTS and still has a year to go. While it is still a bit down the road, Roshan already knows that he wants a future in his field and will be studying Computer Forensics before long.

Truly Exceptional

According to Heavy Equipment Repair instructor Bill Rearick, John Whartenby is one of the best students that he has had the opportunity to teach. John is extremely respectful, very polite and exceptionally driven in his BCAVTS program. John is always willing to assist in class, acting as a role model for his fellow students, while encouraging them to do their best. Mr. Rearick sees leadership qualities in this young man that will give him an advantage in all he does in life. At Mars Area High School John's English teacher, Mrs. Davies, has very similar thoughts about John. She shares that John tries his best in each and every assignment in class and that his personality and ambition are remarkable. John has excelled in all areas of his program, earning seven S/P2 Certifications. John plans on enrolling at Ohio Technical College this fall to further his career in the heavy equipment repair field.
